## GUIDE TO SAFE LABELS

Bank Safe **INSURANCE CLASSIFICATIONS** as per the Insurance office's Manual of Burglary Insurance\*

### Bank Excess Burglary and Robbery Policy

The bank burglary insuring agreement covers loss by burglary of money and securities from within specified safes or vaults occasioned by any person making forcible entry therein and damage to money and securities caused by such burglary or attempt thereat, or by vandalism or malicious mischief; also damage (except by fire) to the premises and to all furnishings, fixtures, equipment, safes and vaults therein caused by such forcible entry or attempt thereat into any safe or vault in the premises or caused by vandalism or malicious mischief, provided the insured is the owner of such property or is liable for such damage.

The bank robbery insuring agreement covers loss by robbery of money and securities occurring within any part of the insured's premises and damage to money and securities caused by such robbery or attempt thereat, or by vandalism or malicious mischief; also damage (except by fire) to the premises and to all furnishing, fixtures, equipment, safes and vaults therein caused by such robbery or attempt thereat, or by vandalism or malicious mischief, provided the insured is the owner of such property or is liable for such damage.

### Bank Safe Construction

Each door of each safe, chest or security locker must be equipped with at least one combination lock, except a safe, chest or security locker equipped with a labeled Underwriters' Laboratories, Inc. approved key lock.

The thickness of steel in doors is exclusive of bolt work and locking devices. If a safe has more than one combination locked door (one in front of the other) the combined thickness of the steel in the doors, excluding any door with less than one inch of steel, shall be used in applying the bank safe classifications.

Night Depository — This is a unit consisting of a head, chute and receiving safe in which deposits can be made from outside the bank. Deposits are made in a bag or envelope.

BANK SAFE Policy Classification Safe, Chest or Security Locker	CONSTRUCTION	
	DOORS (combination locked)	WALLS
<b>A</b>	Steel less than 1" thick, or iron	Body of steel less than 1/2" thick, or iron
<b>B</b>	Steel at least 1" thick.	Body of steel at least 1/2" thick.
	Night depository — steel at least 1-1/2" thick	Body of steel at least 1" thick
<b>BR</b>	Steel at least 1-1/2" thick	Body of steel at least 1" thick
	Safe or chest bearing the label: "Underwriters' Laboratories, Inc., Tool Resisting Safe TL-15 Burglary"	
	Night depository — Receiving safe to be equal to at least Class "BR"	
<b>C</b>	The Receiving safe and chute to be encased in at least 6" of reinforced concrete.	
	Steel at least 2" thick	Body of steel at least 2" thick
<b>D</b>	No longer manufactured	
	Night depository. Receiving safe to be equal to at least Class "BR". Depository head to bear U.L. inspected label. Receiving safe and chute to be encased in at least 6" of reinforced concrete.	
<b>E</b>	Steel at least 2" thick	Body of steel at least 2" thick
	When contained within a safe:	
<b>F</b>	Steel at least 1" thick	Body of steel less than 1/2" thick, or iron
	No longer manufactured	
<b>G</b>	Steel at least 2" thick	Body of steel at least 2" thick
	When contained within a safe:	
<b>H</b>	Steel at least 2" thick	Body of steel less than 1/2" thick, or iron
	No longer manufactured	
<b>I</b>	At least two: Steel aggregating 5" or more in thickness — no door less than 1" thick.	Body of steel at least 2" thick
	No longer manufactured
